WorkSafeBC Videos Now Free!

In response to requests from COCA, WorkSafeBC has just announced that anyone can now download WorkSafeBC safety videos at no cost.

COCA argued that the Construction Industry has already paid for the production of these videos and that the fee for downloading was acting as a deterrent for distributing the valuable safety information.

Thanks to WorkSafeBC for changing this policy.

COCA is now lobbying WorkSafeBC to make it health & safety print materials available at no charge so that they are more widely used.

To download a safety video, go to:
