COCA Update on WorkSafeBC Activities #452 October 13, 2009

COCA Seeks Input on Power Tool Safety

The Construction Safety Association of BC is considering the production of short – one or two minute – safety DVDs on power tools.

COCA would like to receive input from the industry on the this idea, including your thoughts on what power tools it would be best to cover in any safety messaging.

The DVDs would be available for downloading from the CSABC website for use in activities such as Tool Box Talks.

Please send your thoughts to me at the above email address.
