COCA Update on WorkSafeBC Activities #511 July 20, 2011

WorkSafeBC Board Votes for 50/100 Experience Rating System

The WorkSafeBC Board of Directors has decided to move from the current Experience Rating limits to the 50% discount and the 100% surcharge that has been in place for all other industry in BC since the year 2000.

This change was done in spite of the strong submissions from COCA and the overwhelming majority of construction companies that wrote to WorkSafeBC to express their support for the continuation of the maximum discount of 33.3% and the maximum surcharge of 33.3%

Over 90% of construction companies that wrote in to WorkSafeBC supported the 33/33 limits.

The WorkSafeBC Board of Directors will meet in October to decide on the length of the transition period up to the new maximum limits.

COCA will issue more Updates as soon as new information is available.
