COCA Update on WorkSafeBC Activities #536 June 28, 2012

WorkSafeBC Issues Policy on new Mental Disorder Legislation

As previously announced in the COCA Update dated June 8, 2012, the government of BC has passed legislation that provides for workers' compensation for claims for gradual onset mental disorders that arises out of and in the course of employment.

WorkSafeBC was then tasked with formulating the detailed policy that corresponds to this new legislation.

Following a short consultation period, WorkSafeBC has now released the new policy.

The policy is contained within the document [[click here to view](#)], following the WorkSafeBC Board of Directors' Resolution.

Please contact Grant McMillan of COCA if you have any questions with respect to the policy.
